CLAIREMONT HIGH SCHOOL

Building Dedication Ceremony
Student Showcase

Thursday, October 22, 2015
7:45 – 9 a.m.

For more than 10 years, the award winning Academy of Business' mission has been to prepare students for college and career, emphasizing critical understanding of, and developing skills in the exciting world of business and finance. Students gain a competitive edge from engaging in a rigorous and relevant industry-focused pathway of study, centered on real-world experiences, team collaboration, and industry partnerships. Through the smaller, more personalized learning environment afforded through Linked Learning's academy pathway model, students grow to become innovative, articulate, and socially conscious young adults focused on creating a successful future for both themselves, and their community.

The New Academy of Business Facility

The 10,500 square foot, state-of-the-art Academy of Business facility is fully equipped with modern business advances including a mock stock trading floor, media technology classroom, media lab and broadcast sound studio, offering real-world learning experiences that bring the world of business to life.

The Academy of Business facility was funded by San Diego Unified School District's Proposition Z bond measure and matching funds from California's Proposition 1D. This facility represents a nearly \$6 million investment into Clairemont High School and the Clairemont Community.

AGENDA

WELCOME

Karla Rodriguez, Student Leader CEO, Academy of Business
"What AOB Has Meant to Me"

Cooper McDaniel, Student, Academy of Business
"Why Academies Work"
